Farm Chemical Users Course

AHCCHM303 Prepare & apply chemicals
AHCCHM304 Transport & store chemicals
Eligibility to apply for your ACUP

This is a 2 day nationally accredited course. It covers safe chemical use, storage and handling and is a requirement for the Victorian Agriculture Chemical Users Permit (ACUP) which is necessary to purchase and use a number of farm chemicals including common herbicides.

The training covers pest ID, modes of action, label interpretation, issues associated with chemical use, formulation types, weed/pest control application, animal health, transport/disposal, preparation/clean up, recording and other procedures.

Saturday 21 & 28 July 2018

9am-4.30pm, Whittlesea Township

\$30 per person

Participants to supply their Universal Student Identification at time of registration and do a pre-training phone interview with GoTAFE. Visit www.usi.gov.au to obtain a USI.
